

Ankit Nautiyal

Noida, Uttar Pradesh 201304 , 8077439452 (an7197@gmail.com)

Objective

To work in a professional competitive organization, and do the best in whatever I do.

Professional Summary

- Senior Software Engineer at Sopra Steria for 8 months working in Digital Transformation team.
- Senior System Engineer at Infosys Ltd. For 2.6 Years worked at **iCETS**(Infosys Center for Emerging Technologies) (AI incubation Practice).
- Designing and developing machine learning and deep learning services.
- Running machine learning tests and experiments.
- Select appropriate datasets and data representation methods.
- Perform statistical analysis and fine-tuning using test results.
- Train and retrain systems when necessary.
- Extend existing ML libraries and frameworks.

Technical Skills

Programming Languages	python, C, C++, Java, HTML, CSS, SQL, Javascript
Machine learning Libraries	Numpy, Pandas, scikit-learn, xgboost, Dask
Deep learning Libraries	Pytorch, tensorflow, keras, allennlp
Web Framework:	Django, flask
Tools and Editors	Eclipse, Pycharm, jupyter notebook
Version Control	Git

Education

B. TECH | June 2016 | JAYPEE UNIVERSITY OF ENGINEERING & TECHNOLOGY

• Major: Electronics and Communication Engineering (78 %)

Senior Secondary School 2011 Arcadia Academy KOTA (72 %)

Higher Secondary School 2009 ST Thomas Pauri (82)

Professional Work-Experience

Project: Finding frequently asked questions by users

Duration: Jul 2017- AUG 2017

Description: Developed service for chat-bot to find most frequent questions asked by users. The objective was to extract questions from client email chain and then extract questions and group them.

LANGUAGES/TECHNOLOGIES: PYTHON, NLTK , SPACY

Project: Content migration of Documents using classification, clustering and attribute Extraction.

Duration: SEP 2018- march 2019

Description: The Aim is to migrate the documents of client from old repository to new. Mainly project aim to find the duplicate documents within repo using machine learning and remove those documents while migrating and saving the documents mapped to their attributes in DB. Challenges faced are due to multiple languages of documents as client is based on different locations. There are large number of documents and all process should run in parallel.

LANGUAGES/TECHNOLOGIES: PYTHON, NLTK ,SPACY,SKLEARN,DASK

Project: Enhancing and Maintaining iECP(Infosys Enterprise Cognitive Platform)

Duration: APR 2018- July 2019

Description: Creating document classification, clustering and sentiment analysis API.

LANGUAGES/TECHNOLOGIES: PYTHON, NLTK, SPACY, SKLEARN, DJANGO, Pytorch

Project: Enhancing and Maintaining iCMM(Infosys Content Mining Module)

Duration: march 2018- July 2019

Description: Creating Module for invoice processing of documents to fetch the fields present from different types of invoices from multiple clients. Objective is to create pipeline for processing of invoice documents whether its pdf or images and find all fields in xml. For this we have used Annotation based technique using CRF.

LANGUAGES/TECHNOLOGIES: PYTHON, ML LIBRARIES, MongoDB, pycrfsuit

Project: Spelling Correction from speech transcription.

Duration: JAN 2019- FEB 2019

Description: creating an API for correcting spelling from speech transcription

LANGUAGES/TECHNOLOGIES: PYTHON, NLTK , Tensorflow ,LSTM

Project: helmet detection for factory worker.

Duration: NOV 2018- FEB 2019

Description: The objective was to find persons not wearing helmet

LANGUAGES/TECHNOLOGIES: PYTHON, darkflow, Tensorflow, YOLO, OPENCV ,CNN

Project: Resume searching

Duration: July 2019- Sep 2019

Description: The objective was to extract different attributes like skills ,role from set of resumes and then filtering resumes based on the requirements.

LANGUAGES/TECHNOLOGIES: PYTHON, glove, django

Project: Maintaining product Smart Ticket advisory

Duration: Dec 2019- Mar 2020

Description: This product is used to predict ITSM tickets.

LANGUAGES/TECHNOLOGIES: PYTHON , flask , sklearn

Project: Arabic letter recognition

Duration: July 2019- Aug 2019

Description: The objective was to detect Arabic letters

LANGUAGES/TECHNOLOGIES: PYTHON, Keras

Project: Fraud Detection during online exam.

Duration: Jan 2020 - Mar 2020

Description: The objective was to detect whether candidate is cheating or not during exams

LANGUAGES/TECHNOLOGIES: PYTHON, Cv2 , Pytorch, Yolo

POCS: hair detection and wire detection

LANGUAGES/TECHNOLOGIES: OPEN-CV, CAFFE, PYTHON

Kaggle Projects:

- House price predictions
- Facial keypoint identifications

PERSONAL DETAILS:

- Date of Birth 21 March 1994
- Gender Male
- Marital Status Single
- Languages Known English, Hindi
- Hobbies Football, Listening Music, Reading, Cricket

DECLARATION:

I hereby declare that the above written particulars are true to the best of my knowledge and belief.

Date: _____

Place: _____
